GOALS

In the future I see myself working with machine learning in a progressive and advanced environment. The short term goal is to finish my masters in mathematical statistics and produce a high quality degree project in machine learning.

EDUCATION

MSc. Applied Mathematics

2016-Present

KTH - Royal Institute of Technology

For my master I decided to specialize in statistics and specifically machine learning, I took courses which gave me both programming experience and solid mathematical theory. Currently I am working on my Master Thesis which regards the problem of time-series classification, this is done in cooperation with KTH and Metry AB.

Exchange Semester

2016-2017

ETH Zürich

I studied one semester at ETH where I took courses in Financial Mathematics, Time series analysis and Probability theory.

BSc. Vehicle Engineering

2013-2016

KTH - Royal Institute of Technology

During these years I studied basic engineering courses such as mechanics and calculus.

WORK EXPERIENCE

Cemetery worker

Summer
2017/2018

Svenska Kyrkan

At Solna kyrkogård I worked with gardening jobs, burials and general grave-care.

Calibration Engineer

Summer 2016

AstraZeneca

I worked in the calibration department of OMCC at AstraZeneca Sweden Operations during this time. I assisted calibration engineers in their work, reorganized an archive and set up a site for internal communications using Microsoft Sharepoint.

Corporate Relations

2015-2016

KTH - Formula Student

I worked in KTH's formula student team in the sub-division handling corporate relations. The work tasks varied a lot and included working with cost reports and contacting new sponsors. I learned many things about working together in a large scale team and dealing with external communication when being in contact with sponsors.

Cashier

2015-2016

ICA Mosebacke

I worked part time in a local grocery store as a cashier. This job improved my ability to act professionally and dealing with different kinds of customers. It also strengthened my ability to work under pressure.

SKILLS

<i>Software</i>	PYTHON
	MATLAB
	R
	PYTHON
	TENSORFLOW
	C
	MICROSOFT OFFICE
	L ^A T _E X
<i>Languages</i>	Swedish (mother tongue)
	English (fluent)
	Finnish (fluent)
